

You are cordially invited to the
**National History Center's
Congressional Briefing
on**

Historical Perspectives on Climate Change

**2:00 p.m.–4:00 p.m. Friday, April 27, 2007
385 Russell Senate Office Building**

featuring

Professor James Rodger Fleming

James Rodger Fleming is Professor of Science, Technology and Society at Colby College, Maine. He currently holds the Roger Revelle Fellowship in Global Environmental Stewardship from the American Association for the Advancement of Science (AAAS) and is a Public Policy Scholar at the Woodrow Wilson International Center for Scholars where he is completing a book on "Weather and Climate Engineers: Fantasies of Control."

Professor Fleming earned a B.S. in astronomy from Pennsylvania State University, an M.S. in atmospheric science from Colorado State University, and an M.A. and Ph.D. in history from Princeton University. His books include *Meteorology in America, 1800–1870*, *Historical Perspectives on Climate Change*, and *The Callendar Effect: The Life and Work of Guy Stewart Callendar*.

Questions and Answers will follow the presentation. Complimentary light refreshments served.

Please r.s.v.p. to info@nationalhistorycenter.org or 202-544-2422 ext. 103.
