

NAAS HONORARY MEMBERSHIP FORM

NAAS member Academies affiliated with AAAS may nominate two secondary school and two college students for one-year honorary memberships in AAAS. Nominees should include one female and one male for each category. If an Academy wishes to nominate additional students at its own expense, please enclose a separate letter detailing the request. Should more than two students be listed in either category, the AAAS will award honorary memberships to the first two names only. As members of the AAAS, the students will receive *Science* each week for a year and a certificate of membership in the AAAS.
