

# INDEX

## A

- advisory committees, for university research collaborations, 139-40
- African Americans, *see* minorities
- AGEP, Alliance for Graduate Education and the Professorate, 189-90
- Ahlen, John, 46
- Alabama
  - business-relevant research, 58
  - coastal marine science in, 43, 50, 181
  - competitiveness, 48, 66
  - EPSCoR leadership in, 42-44
  - industrial support strategy in, 50
- Alliances for Minority Progress, 188
- American Association for the Advancement of Science (AAAS) and peer review of programs and proposals, 94-95
  - Research Competitiveness Program, 94
  - Research Competitiveness Service, 94-95
- Arizona, university reform led by
  - business, 55-57
- Arizona State University, 56-57
- Arkansas
  - as initial EPSCoR state, 41
  - leadership transition, EPSCoR, 46-47
- Atkinson, Richard, 37, 39-40
- Auburn University, 89
  - bootstrapping strategy of, 104
- Australian Department of Education, Training and Youth Affairs, 80, 83, 106-8

## B

- Babbitt, Bruce, 56, 61
- Baltimore, David, 24
- basic research
  - impact of formation of intermediate industry sector on, 164
  - and instrumental techniques research, 165-66
  - projects leading to marketed products, patents, and licenses, 155-56, 161
- Bell Laboratories, 67
- benchmarking, within strategic planning, 90-96
  - “Best Practices Manual,” (of Engineering Research Centers), 136
- Bigelow Laboratory for Ocean Sciences, 43
- “big science” collaborations, 153
- biotechnology, 79
  - entrepreneurial ventures, 154
  - medical research funding, 27
- BITNET, 170
- Bloch, Erich, 64-65
  - boards of higher education (state), 60-61
- Boise State University, 104
- Breast Cancer Coalition, 185
- Brisch, Hans, 44
- Bush, Vannevar
  - model of government science support, 69, 71, 73
  - on role of academic research, 87
- business

## INDEX

- industry activity in establishing
  - university collaborations, 116
  - roles in state sponsored science, 54-57, 72
  - strategic planning in, 84-85
  - see also* industry
- Business-Higher Education Forum, 118
- C**
- carbon-based materials research, 67
- Carnegie Mellon University, 23
  - consensual strategic planning through information technologies, 89
- Chronicle of Higher Education*, 79, 108
- Civil Rights movement, 187
- Clemson University, 45, 67
- Clinton, Bill, as EPSCoR governor, 46, 61
- Clinton Administration
  - and higher capacity computer network, 68
  - and women in leadership positions, 184-85
- collaborations, research
  - between universities, 169-71
  - characteristics of research units, 156-68
  - centers, advantages of creation of, 171
  - studies on, 152-68
  - see also* EPSCoR; industry; management, research
- Collins, Martha Layne, 61
- communications
  - inter-personal, 137-38, 143
  - inter-team, 136-37, 143
- Comprehensive Partnerships for Mathematics and Science Achievement (CPMSA), 187-88
- Connolly, John, 44
- Consortial Acceleration Network (CAN) Teams, 141-44
- Cooperative Research and Development Agreement (CRADA), 160-61
- COSMOS Corporation, 70
- Council on Competitiveness, 118
- CREST program (Centers of Research Excellence in Science and Technology), 188-89
- D**
- Danek, Joe, 65
- Department of Energy, and EPSCoR, 65
- Dulbecco, Renato, 24
- Durig, James, 44-45, 49-50, 64
- E**
- education, K-12, 187-88, 191, 194
- EDUCOM, 170
- Emory University, 55
- engineering, at Arizona State, 56-57
- Environmental Protection Agency, and EPSCoR, 65
- EPSCoR (Experimental Program to Stimulate Competitive Research)
  - collaborations as generating increased capacity, 172
  - clusters, 50-51
  - compared to other egalitarian science and technology projects, 180-81, 189-90, 194-95
  - encouragement of strategic planning at state level by, 81
  - enrolling universities in, 48-54
  - entrepreneurs, 38, 42-48
  - evaluation of, 70
  - federal and national funding strategies, 64-68
  - individual-support approach, 49-50
  - leadership at state level, 41
  - legacy of inter-university collaborations, 172
  - mainstreaming/co-funding, 51-53
  - options to enhance research competitiveness at universities, 11-33
  - origin and growth of, 37, 39-40
  - and peer review, 94-95

## INDEX

roles of business in, 54-57, 72  
social capital emphasis of, 183, 190  
structural differences between non-EPSCoR universities and, 14  
university orientation of, 59-60  
women's success in, 185

ethnographic studies, of collaborative research, 153-54

European Union, 195

evaluation

effectiveness measures in knowledge creation and dissemination, 85-86  
of egalitarian programs, 183

## F

faculty, university

characteristics of researchers, 161, 170

as research proposal writers, 18

role in strategic planning process, 81, 101

scale of research undertaken by, 19

federal agencies

as advocates for women in science, 183

and EPSCoR, 37, 50, 53, 65-66

*see also* government-sponsored research

federal laboratories

studies of industry collaborations, 155-56

fibers research, 67

foreign nationals, in U.S. science and technology, 187, 193

Georgia, university reform led by business, 55-57

Georgia Institute of Technology, 157

Georgia Research Alliance (GRA), 56

Georgia Tech, 55

government-sponsored research

leading to formation of major research centers, 167

program manager's impact on collaborative projects, 164

Government-University-Industry Research Roundtable, 118

governors as key players in science reform, 56, 61-62

## H

Haddon, Robert, 67

HBCU-UP program, 189

Healy, Bernadine, 185

high-energy physics, collaborative research, 153

high-speed computer resources, and national network, 170

Hispanic Americans, *see* minorities

Hodges, Luther, 62

Horner, Jack, 49

human capital

as emphasis of women's recruitment programs, 183-84

as EPSCoR product, 180-81

as essential to addressing minority health problems, 190-91

scientific and technical, as product of inter-institutional collaboration, 168

strategies as benefiting middle class minority students, 187

Hunt, James, 62

## I

Industrial Research Institute, 118

University Relations Committee, 130

industry

applications of instrumental

techniques research, 165-66

corporate councils for exchanges on research projects, 164-65

establishment of university consortia by, 116

## INDEX

- formation of intermediate sectors
  - based on collaborations with universities, 164
- relations with collaborative research
  - teams having major economic importance, 166-67
- research, changes in, 118
- role in establishing university collaborations, 116
- studies of federal lab collaborations, 155-56
- studies of university collaborations, 154-55
- support of university research by, 13
- ties to small university-based research projects, 163
- information technology
  - and consensual strategic planning, 88-90
  - entrepreneurial ventures, 154
  - see also* World Wide Web
- innovation, linear model of, 154
- intellectual property rights
  - in collaborative research, 127-29
  - patents and licensing, 161
- interdisciplinary approaches
  - encouraged in EPSCoR states by NSF, 50
- J**
