Source: Agency budget justification and NIH reporting web site (<http://report.nih.gov/recovery/>).

Figures include grant awards only and do not include other activities such as contracts.

Figures include grant data as of December 1, 2009.

All figures rounded to the nearest million.

Includes R&D and non-R&D components.

1/ Of the \$8.2 billion for scientific research, \$5.7 billion is for research project grants, \$1 billion is for supplements, at least \$200 million is for Challenge Grants, at least \$200 million is for Grand Opportunity Program grants, and \$100 million is for new faculty grants.

2/ This will be split between two competitions. \$200 million for \$100 - \$500 thousand proposals, and \$100 million for \$600 thousand - \$8 million proposals.

3/ For "comparative effectiveness research under section 301 and title IV of the Public Health Service Act."
