AAAS estimates of R&D in FY 2007 appropriations bills. Includes conduct of R&D and R&D facilities.

All figures are rounded to the nearest million. Changes calculated from unrounded figures.

"Earmarks" are AAAS interpretations of unrequested, congressionally designated, performer-specific R&D projects contained in legislative language or committee report language in appropriations bills.

Earmarks do not include non-R&D congressionally designated projects.

FY 2007 columns represent earmarks in enacted appropriations bills or the third continuing resolution (Public Law 109-383).

All other years are earmarks in final appropriations.
