

Trends in U.S. Industry R&D, 1991-2007

Expenditures in billions of constant 2007 dollars

Source: AAAS, based on NSF, *National Patterns of R&D Resources* (Data for 2007 are preliminary.) Data series begins at 1991 because of revisions in NSF sampling methods for industrial R&D that year. Includes all industry-funded R&D. Excludes industry-performed R&D funded by other sources.
