AAAS Statement on U.S. Election Results

“The scientific community congratulates President-Elect Joe Biden, Vice President-Elect Kamala Harris, all winners of the U.S. elections, and the American people who voted in record numbers to participate in our democracy. As newly elected candidates prepare to take office, we stand ready and willing to assist efforts at the national and state level to address critical challenges that would benefit from scientific expertise, including the COVID-19 pandemic, climate change, national and energy security, and scientific and economic competitiveness, among others. We look forward to working with you.”

— Sudip Parikh, chief executive officer, American Association for the Advancement of Science (AAAS)

###

The American Association for the Advancement of Science (AAAS) is the world’s largest general scientific society and publisher of the journal *Science*, as well as *Science Translational Medicine*; *Science Signaling*; a digital, open-access journal, *Science Advances*; *Science Immunology*; and *Science Robotics*. AAAS was founded in 1848 and includes nearly 250 affiliated societies and academies of science, serving 10 million individuals. *Science* has the largest paid circulation of any peer-reviewed general science journal in the world. The nonprofit AAAS is open to all and fulfills its mission to “advance science and serve society” through initiatives in science policy, international programs, science education, public engagement, and more. For additional information about AAAS, see www.aaas.org.
