

Thank You for Your Generous Support

The support of members and others involved in the scientific enterprise is greatly appreciated. Private support assisted the Association in 2002 by providing valuable resources to undertake new initiatives, supplement program funding, and address the issues and concerns of the scientific community. The AAAS Board of Directors gratefully acknowledges the generosity of all those listed here, whose support has helped the Association to continue its work towards Advancing science • Serving society.

"I have great respect for the AAAS, as well as great affection and admiration for it, and I believe that the organization can become even more useful to society. [My] gift will support programs that would not otherwise be funded as part of the Association's normal budgetary plan."

1848 Society

The 1848 Society recognizes individuals who provide for AAAS through their wills and other charitable plans. Often, these help to endow programs, create awards, or otherwise advance the Association's mission, programs, and facilities.

Society members have demonstrated vision and commitment through charitable gift plans providing for AAAS. We are honored that these donors have elevated AAAS to the level of family by including us in their wills or estate plans.
