

Feedback Form: An Outline for a Green Schools Energy Curriculum

Now that you have reviewed the outline for the Green Schools Energy Curriculum, please indicate the extent to which you Disagree or Agree with the statements below. When you have completed the Feedback Form, please click on the "Submit" button at the end.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
1. My opinion of the course as it is presented in the outline is generally favorable.					
2. The course that is outlined is appropriately aimed at the level of most middle school students.					
3. The course that is outlined would be an effective way to teach students about energy, environmental conservation, and ecological sustainability.					
4. Students will be interested in a course organized around the topics presented in the proposed outline.					
5. It is educationally sound to use a Green Schools theme as an organizer for learning.					
6. The ideas and activities presented in this outline fit together coherently under a Green Schools theme.					
7. The course that is outlined is consistent with the vision of integrating core science ideas, crosscutting concepts, and science and engineering practices that is recommended in the <i>Next Generation Science Standards</i> .					
8. My school has the human and physical resources to include a course like this in its curriculum.					
9. The course that is outlined is adequately aligned with my state standards to make it a valuable part of my school's curriculum.					
10. My school's departmental structure and the expertise of the teachers make it likely that a course that attempts to integrate STEM learning goals in this way would be successful.					

	0 weeks	2 weeks	5 weeks	10 weeks	20 weeks	40 weeks
11. I think the appropriate amount of time to devote to a course like this is:						

Please add any other comments here (if you are commenting on specific text in the Green Schools outline, please refer to the line number(s) where that text is located):

I am primarily a:

- Classroom teacher
- School administrator
- Curriculum/test developer
- Researcher
- University faculty
- Other

If you selected "Other," please specify your role:

Do you work in a school that is designated as a:

- "Green" school?
- science, technology, engineering, and mathematics (STEM-focused) school?
