Federal Policy

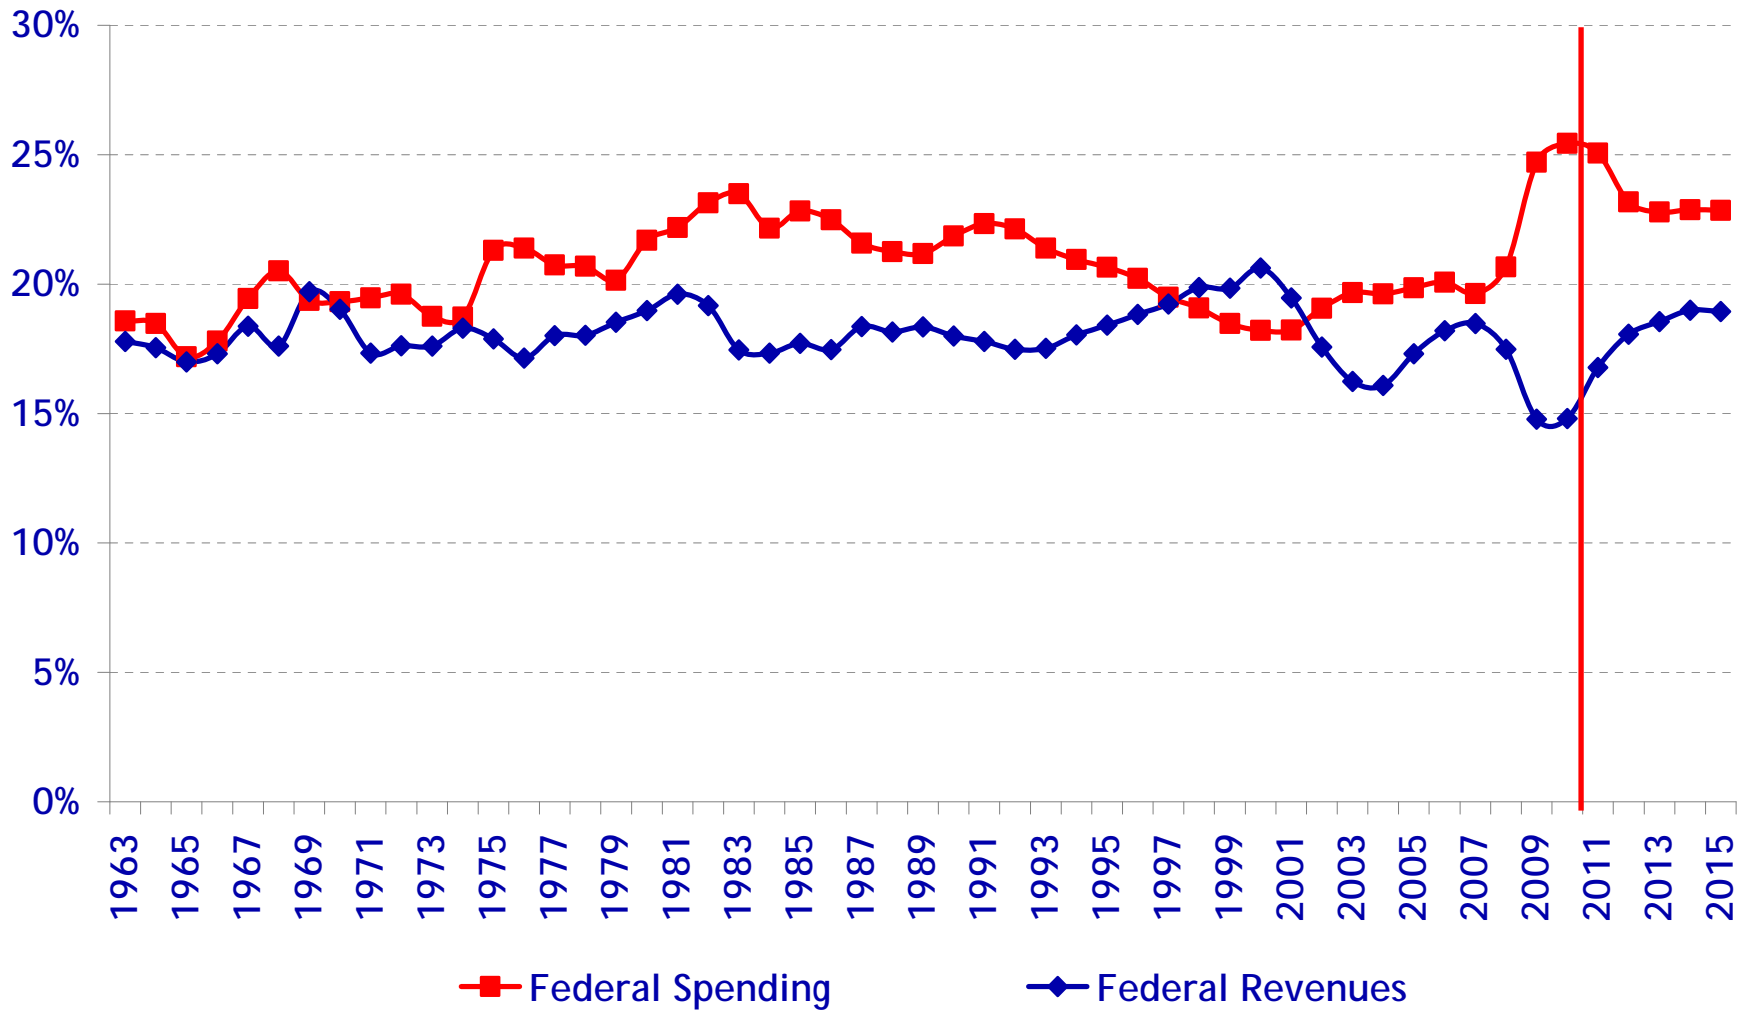

- How does the federal government implement policy?
- The budget is the primary way Congress directs U.S. policy and priorities
 - Almost all policy involves money, directly or indirectly
 - The budget cycle drives decision-making
 - Affects the health of U.S. science and engineering
 - \$148.1b on research and development
 - Over 60% of all university R&D is federally funded
 - Education and workforce training

The U.S. Federal Budget in FY 2011

- Total Budget: \$3.8t
 - Over 1/5 of the total U.S. economy
- Total Receipts: \$2.6t
 - Mostly from income and payroll taxes
- Deficit: \$1.3t
 - \$89b borrowed from Social Security

Deficit Spending

- The U.S. national debt dates back to our inception
 - Was zero briefly in 1835
 - Tends to expand quickly during wartime
- 33 percent of the FY 2011 budget is funded by loans
 - Government bonds
 - Other federal government accounts
 - Auctioned internationally - China, Japan, and UK are major lenders
- Debt limit is raised regularly
 - Currently at \$14.3t (set in February 2010)

The Federal Budget Cycle

- Discussions within agencies among upper management about possible priorities and initiatives

The Federal Budget Cycle

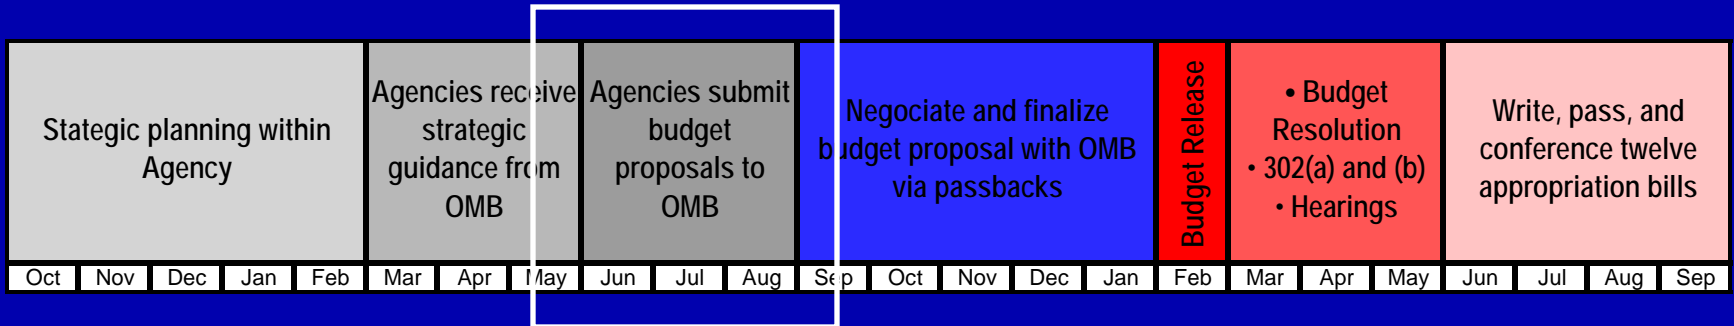

- Joint memorandum from Office of Management and Budget (OMB) and the Office of Science and Technology Policy (OSTP) lays out Presidential priorities and provides broad guidance

FY 2012 R&D Challenges

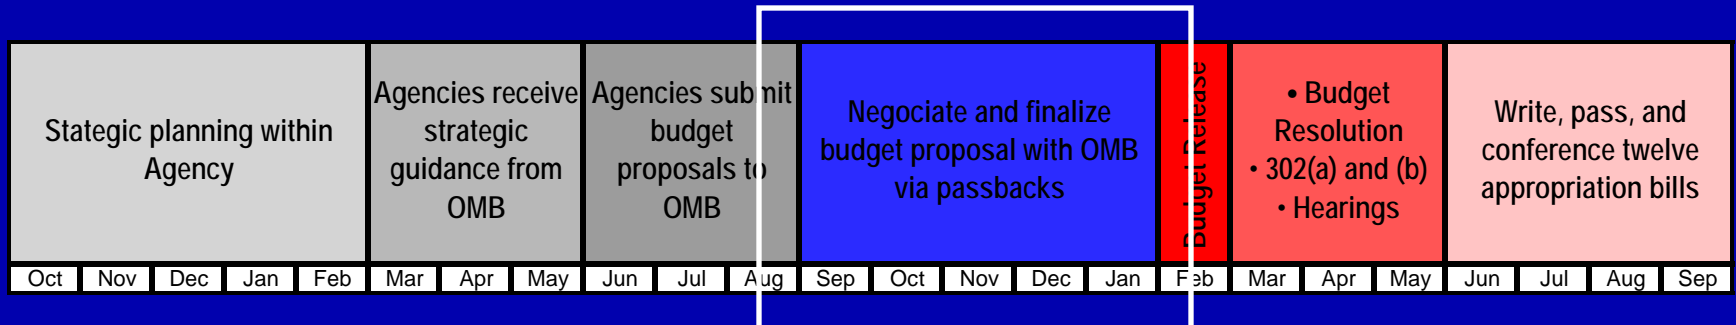

- Promoting sustainable economic growth and job creation
- Defeating the most dangerous diseases and achieving better health outcomes for all while reducing health care costs
- Moving toward a clean energy future to reduce dependence on energy imports while curbing greenhouse gas emissions
- Understanding, adapting to, and mitigating the impacts of global climate change
- Managing the competing demands on land, fresh water, and the oceans for the production of food, fiber, biofuels, and ecosystem services based on sustainability and biodiversity
- Developing the technologies to protect our troops, citizens, and national interests

The Federal Budget Cycle

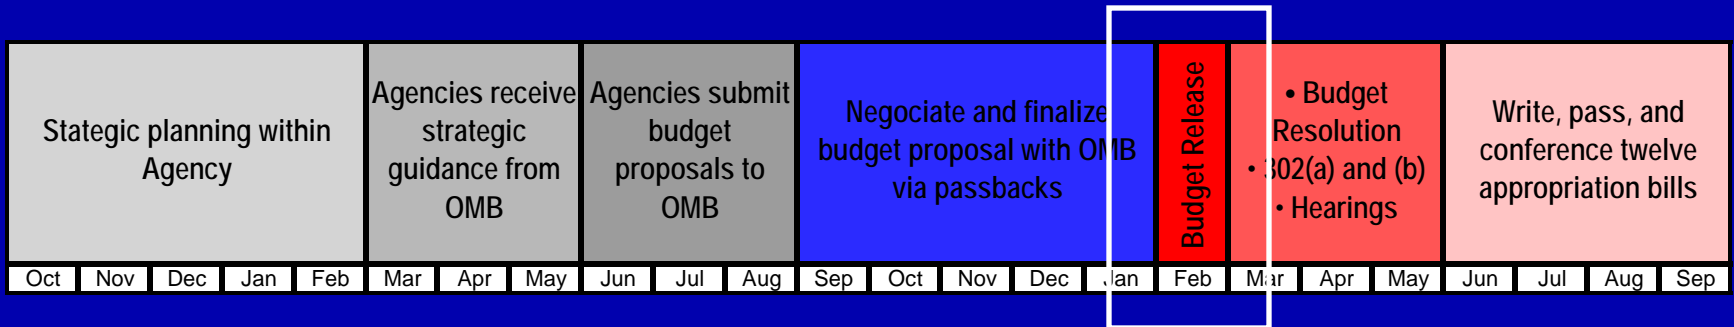

- Agencies deliver budget justifications to OMB

The Federal Budget Cycle

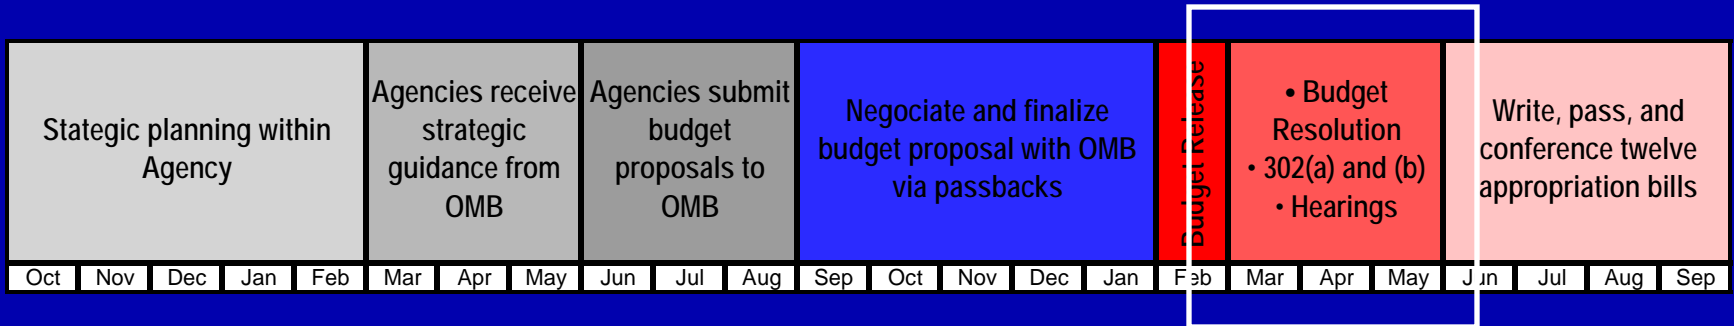

- Agencies negotiate with OMB over their budget proposals with OSTP serving an advisory role
- Budget proposals are finalized in January

The Federal Budget Cycle

- President presents the proposed budget to Congress on the first Monday of February

The Federal Budget Cycle

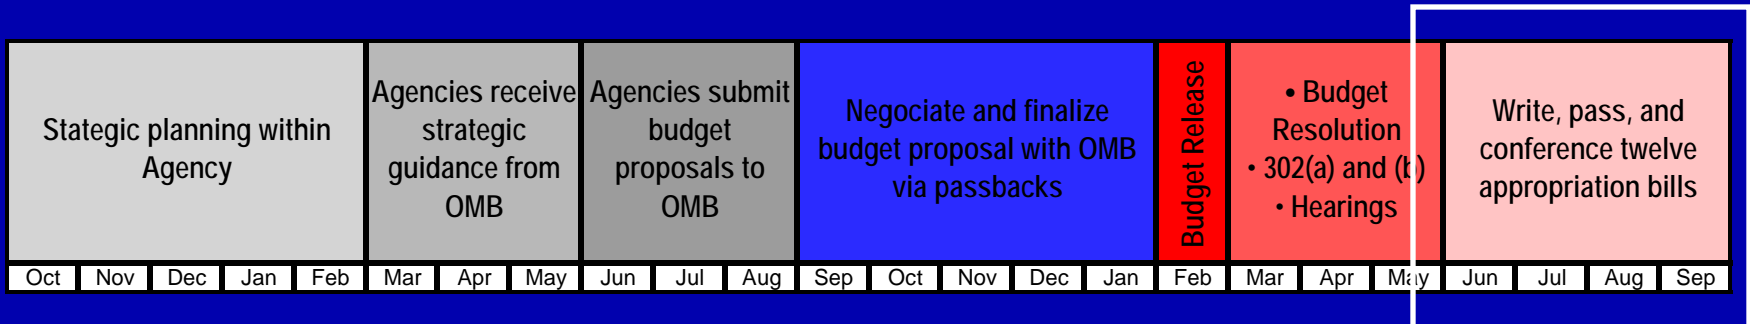

- Congress holds hearings on agency budgets and initiatives
- Authorizing committees create authorizations for agencies
- Congress approves budget resolution, the big-picture spending plan
- Appropriations committees receive 302(a) allocations and determine 302(b) allocations for each appropriations bill
- Determine need to allow for reconciliation bill

Reconciliation Bill

- A special bill which modifies tax law or mandatory programs to reconcile with the budget resolution
- Reconciliation is optional, and not always necessary
- Reconciliation bills have special procedural rules
 - Can not filibuster, so the Senate only needs 51 votes to pass a reconciliation bill
- In FY 2010, both health care and education were subject to reconciliation
- No traditional budget resolution for FY 2011

The Federal Budget Cycle

- Appropriation committees write and approve appropriations bills
- Bills have to pass the full chamber by majority vote
- The different versions passed by both chambers are conferenced
- Each chamber then has to agree to the conference report before President can sign
- The fiscal year ends on Sept 30, any unfunded agency must shutdown unless a continuing resolution (CR) is passed
- Omnibus bill is created to pass remaining appropriations bills

The Federal Budget Cycle

FY 2010	----- Spend Fiscal Year Budget -----																									
FY 2011	Negociate and finalize budget proposal with OMB via passbacks				Budget Release	Budget Resolution 302(a) and (b) Hearings				Write, pass, and conference twelve appropriation bills				----- Spend Fiscal Year Budget -----												
FY 2012	Strategic planning within Agency					Agencies receive strategic guidance from OMB			Agencies submit budget proposals to OMB			Negociate and finalize budget proposal with OMB via passbacks					Budget Release	Budget Resolution 302(a) and (b) Hearings				Write, pass, and conference twelve appropriation bills				
	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep		

- Agencies are working on 3 budgets at any given time

Supplemental Appropriations

- Throughout the year, as necessary, Congress can introduce a supplemental appropriation bill
 - Usually for natural disasters or emergencies
- Examples
 - February 2009 - The American Recovery and Reinvestment Act (ARRA) - \$814b for economic recovery
 - June 2009 - \$106b for war operations and flu preparations
 - August 2009 - \$2b to extend “cash for clunkers” program
 - July 2010 - \$59b for war operations, FEMA, and Haiti aid

The FY 2011 Federal Budget

- \$3.8t total budget, \$1.3t unified deficit
- \$1.3t discretionary budget (+0.3%)
 - \$532b nondefense budget (+1.4%)
- Rescuing the Economy
- A Foundation for Economic Growth and Job Creation
 - Small business initiatives
 - Investing in science and basic research
- Restoring Responsibility
 - Three year non-security discretionary funding freeze
