For agency and program details, and detailed information on methodology, please refer to these analyses.

* - This analysis uses the original FY 1995 funding level as the baseline to reflect the seven-year timetable for balancing the budget.

** - expressed in FY 1995 dollars. Adjusted for inflation according to GDP deflators.

FY 1995 R&D figures are before rescissions enacted in 1995. FY 1996 figures represent the latest AAAS estimates of R&D in FY 1996 appropriations. FY 1997-2002 figures are AAAS estimates based on projections contained in the President's FY 1997 budget and the proposed House FY 1997 budget resolution policy assumptions, adjusted for changes in the final budget resolution.
