

## Technology and Human Rights Spring 2002

This seminar is taught by Professors Tracy Higgins and Mark Patterson. The first portion of the class (approximately ten weeks) covers a variety of topics in the area, and the last few weeks are devoted to student presentations. The topics for the class sessions are listed below, with links to lists of materials for those sessions. (Note, however, that materials for some of the later weeks are not yet posted.)

Week	Date	Topic
